These drawings have been prepared using information provided by the customer/contractor and is solely responsible for the accuracy of the information provided. The drawings are not applicable within any local building codes which may vary. These plans are intended to be used by a licensed contractor familiar with local building codes and construction practices. Before starting construction, the customer should consult a contractor and/or local building officials to determine if the plans require any modifications to meet existing codes or regulations. (2) protect structural requirements. (3) existing conditions and dimensions must be verified prior to construction. Any discrepancies found must be reported to this office before construction begins. If no report is received, we assume no responsibility for errors or omissions arising from work based on these plans. Because we have no control over the quality of workmanship, construction techniques, or conditions, we assume no responsibility for failure of any construction to perform in accordance with these plans.

These drawings have been prepared using information provided by the customer/contractor who is solely responsible for the accuracy of the information provided. The drawings are not a substitute for permit drawings prepared by a contractor or architect and may not meet applicable state and local building codes which can vary widely. These plans are intended as a guide for builders who are knowlegable about normal construction standards and local codes and practices. Before starting construction, the customer should consult a contractor or architect to determine if the drawings need to be changed to satisfy: 1.) state or local building codes or regulations; 2.) projects structural requirements; 3.) existing conditions specific to project or project site. Consult local building officials to determine if a building permit is required. We assume no responsibility for claims or damages arising from errors, omissions, deficiencies, improper construction, or defects of the drawings.
